

TRIBUNE MOVIE GOES FAMOUSLY, FINISHED TODAY

All Invited to Wedding at Congregational Church at 10 A. M.

The Tribune's movie "A Romance of Great Falls" will be completed today (Saturday.) Friday scenes were taken at Gibson Park and in front of the Great Falls-Overland company and a big scene was filmed in front of The Tribune office.

Scott Leavitt made his debut as a perfectly wonderful factory manager from the side door of the Central Fire station which was supposed to represent the office door of the B. & M. works. It was here that Scott put the hero, Harold Mady, to work and "fired" a couple of "hardboiled" bolsheviks, played by Marvin ("Doc") Old and D. E. "Eddie" Lynch.

A scene where the hero overhears the villains plotting was taken in First alley north and Fifth street after which Mrs. C. B. Roberts of 208 Third avenue north graciously placed her home at the disposal of The Tribune for the filming of another scene.

Adam Stimpert as "Papa" Atherton and Mrs. E. G. Moore as "Mamma" Atherton acted some splendid scenes on the front porch of Dr. F. J. Adams' home at 103 Third avenue north.

Miss Mary Kingsbury and little Helen Armstrong also figured conspicuously in these scenes. The two villains were taken out and blown to "smithereens" near the B. & M. works and the "proposal" scene was enacted at Rainbow Falls.

This (Saturday) morning at 10 o'clock the movie wedding will take place at First Congregational church, corner of Third avenue north and Ninth street and hundreds of people will be there to wave goodbye to the movie bride and groom as they depart on their movie honeymoon.

At 11 this morning a scene will be filmed in front of the Sexton theater and again the public will be filmed.

As previously stated "A Romance of Great Falls" will be at Sexton Theater on April 13-17, inclusive, in addition to the regular program.

Walter Steiner, the director for the Hudris Film company is highly pleased with the talent of the local young folks and predicts a tremendous success for the film.

The cameraman for the Hudris is Beverly B. Dobbs who was specially engaged to do this picture. He is known in every country in the world for his wonderful pictures in "Top of the World." Mr. Dobbs spent 12 years in Alaska making pictures and they without doubt are the last word in cinema photographic work.
