

C. A. COLBY

Candidate for
SCHOOL TRUSTEE

Election Saturday
April 3

One of the greatest evils with which the world has to combat today is **IGNORANCE**.

Let us all take more interest in the education of our children and work together to establish the reputation of having the best schools in the state.

Missoula being the educational center of the slate should have the best grade schools. It is Missoula's right.

If elected I pledge my support to any move which tends to increase the scope and efficiency of the school system. Not only shall I support such movements, but I will start them.
